## TECHNICAL DATA SHEET

# H-204

## Polyether silicone oil

**CAS:68937-54-2**

### **DESCRIPTION**

H-204 is a polyether-modified silicone oil, a high cloud point, a non-ionic surfactant. It has low surface tension, good water solubility, emulsification, foam stability and physiological inertness.

### **TYPICAL PROPERTIES**

Appearance	Colorless or light yellow transparent liquid
Viscosity (25°C)mm <sup>2</sup> /s	800-3000
Active component	100%
Cloud point	80-95°C
Dosage %	0.5-2

### **USES AND APPLICATION**

Widely used in daily chemical, textile, uniform polyurethane foam and other industries.

### **SAFETY**

Before handling, read the Material Safety Data Sheet and container label for safe use, physical and health hazard information.

### **STORAGE AND SHELF LIFE**

After sealing packaging products stored in a cool, dry place, H-204 (Unbroken package) has a shelf life of 6 months from date of manufacture. After the expiration date, we can retest it, and if it meets the requirement, we can still use it. H-204 is transported as non-hazardous chemicals.

### **PACKAGING**

**H-204** is available in 200 kg/1000 kg plastic drum.

### **LEGAL DISCLAIMER**

Hito chemical believes that the information in this technical data sheet is an accurate description of the typical uses of the product. Hito Chemical, however, disclaims any liability for incidental or consequential damages, which may result from the use of the product that

are beyond its control. Therefore, it is the user's responsibility to thoroughly test the product in their particular application to determine its performance, efficacy and safety. Nothing contained herein is to be considered as permission or a recommendation to infringe any patent or any other intellectual property right.
